Advantages of hot water

BETTER RESULTS

Better cleaning result

With hot water, solidified oils and fats dissolve and emulsify considerably better and are therefore easily removable. Hot water is particularly effective in dissolving proteins and fats in the food industry.

LESS CLEANING AGENT

Reduced use of cleaning agents

In most cases, fats, oils, resins, etc. can be dissolved with just hot water; therefore, significantly less cleaning agent is required and in some cases, may be waived altogether. This protects the environment and saves money and resources.

TIME-~~S~~AVING

Shorter working time

Hot water causes dirt to be loosened much faster, resulting in significant time savings of up to 35%. Thus, a variety of cleaning tasks can be performed cost-effectively and economically.

GERM REDUCTION

Germ-reducing effect

A significant reduction in germs can be demonstrated after cleaning with hot water. This germ reduction achieved without disinfectant is sufficient for many hygiene requirements.

KÄRCHER

20 REASONS TO CHOOSE A KÄRCHER HOT WATER BLASTER

COMPACT CLASS

- 1 Revolutionary EASY!Force trigger gun technology for user comfort **Patented Technology**
- 2 EASY!Lock quick-release locks: Durable and robust - 5 x faster than normal **Patented Technology**
- 3 To protect the machine - Auto shutdown: Auto switch-off of motor and pump when the trigger gun is not engaged
- 4 Unrivalled cleaning performance - Steam function (up to 155 °C)*
- 5 To ensure long life - 4-pole water-cooled electric motor*
- 6 To increase operator productivity Servo Control: Regulation of pressure and flow at the lance*
- 7 Upright mounted coil for a more efficient burn (contains) **Patented Technology**
- 8 Anti-twist system: Hose with freely rotatable connectors*
- 9 Integrated swivel hose as standard
- 10 Nozzle design delivers up to 40% greater power
- 11 High-pressure detergent application
- 12 Colour-coded user functions for ease-of-use
- 13 Water de-scaler (RM 110) additive to care for the internals of your heating coil

MEDIUM CLASS

All previous features +

- 14 Trigger pull and hour metering
- 15 Safety features including low water cut-out and auto shut down
- 16 20m long-life hose as standard
- 17 Stainless steel heating coil
- 18 25L diesel tank

SUPER CLASS

All previous features +

- 19 Twin onboard detergent tanks - 20L & 10L
- 20 Dual Lance capability (On HDS 2000 Super)

* On selected Compact Class machines.
